► label.m's new Sleek Blow Out Cream is a nourishing cream that has been developed to act as a pre-heat primer. It is formulated with castor seed oil that protects and prepares the hair for styling and has frizz-defying properties. It also contains label.m's Enviroshield Complex - a high level UV shield barrier that helps to hydrate and achieve smooth results with a healthy-looking finish and is also sulphate, sodium and chloride-free. It will add texture and 'spring' to fine-medium hair types.

◀ ghd has launched a new professional styling range; a capsule collection with the emphasis on simplicity, performance and an ability to transform a look using heat with confidence and without compromise. The 10 products in the ghd Style range are colour coded into six simple sections: sleek and straight, curls and waves, volume, high shine, fix and hold, and protection. The range also includes a new and improved ghd Style Heat Protection Spray. All the products are infused with an exclusive new fragrance.
