Win a new compact Apollo 1 hairdryer from Corioliss RRP £64.99

Your hair is in for a new drying experience with the launch of the high tech Apollo 1, the new compact hairdryer from Corioliss.

Although mini in size, its turbo 2000w motor is powerful enough to rival a standard-sized dryer! It boasts a (truly) revolutionary pro variable air flow system, which means you can actually change the heat of your hairdryer by the push of a dial! With a cold shot option and an ionic generator that eliminates frizz and static for an ultra-smooth finish, Apollo will literally blow you away.

Apollo 1 is designed in an elegant soft touch black matt finish and comes in a trendy style bag that contains a fabric diffusion sock and two diffuser nozzles for multiple drying options. Cleverly, Apollo 1 switches off on impact with the floor or any surface to prevent further damage to the motor. Apollo 1 is the ultimate lightweight and ergonomically designed hairdryer from Corioliss making it the most versatile styling tool for travelling and on-the-go styling this year.
